PLANNING BOARD

Annual Report

Your Planning Board submits the following as its annual report:

Climaxing several years of study and consideration by many of the citizens giving freely of their time and experience, a new Zoning Ordinance and Building Code was submitted to the Town at a special meeting on July 17th last.

With minor changes it was adopted and is now working well, thanks to the cooperation of our appreciative citizens, who realize full well that without zoning and control of construction through a basic code the Town could not keep abreast with modern cities and towns.

As time marches on it will be seen where changes should be made in order to protect the many and will be recommended for adoption.

Let us always weigh carefully any suggested changes, that they build on the foundation of wisdom and are constructive and not destructive.

Respectfully submitted,

PAUL BUXTON

Chairman

YEAR OF 1956

The year has passed with our financial picture improving and \$10,000.00 in Bonds and Notes paid off. Current expenditures ran higher than expected which was due, mainly, to the unusually high costs of snow removal in the spring, but the Actual Revenue was higher than anticipated, so that we ended just slightly in the black.

During the year Special Meetings were held in which a new Zoning and Building Code was adopted and amended. We hope that this will be the means of a healthy growth within the Town.

This year it was deemed advisable to increase valuations of property so that our values are nearer the State average. We feel that we are now valuing property at about 46 to 50%. This in affect reduced our tax rate in the same proportion. The average taxpayer still pays the same, but our tax rate is much more conducive to bringing Industry into Town. The Board of Trade, the State Planning and Developing Commission through the Planning Board, Hudson Industrial Associates and your Board of Selectmen have been working to this means with a very favorable outlook for 1957. The help of every citizen is needed to keep us informed of any factories or industries who are looking for a location, so that they may be contacted. Stabilizing your tax payment depends on careful spending and added revenue through industry.

We are sorry to announce that the oldest member of our Highway Department has had a partial retirement, due to poor health. Mr. Harry Sanders has nearly 35 years of service with us and is one of the best Grader Operators in the country. He will be greatly missed in that capacity, but expects to work part-time for us until such a time as he is able to return for full-time work.

While our thoughts are with the Highway Department, serious consideration should be given to replacing our present loader. It is now six years old and the repair costs greatly exceeded \$1,000.00 in 1956. Elsewhere in the Report is our Major Equipment List which shows the estimated life of the machines. As can be seen, equipment should be replaced regularly so that no one year will have excessive expenditures.

On Veterans' Day, November 11, 1956, the Alvirne Memorial Field was dedicated. The program and parade roster can be found on a separate page of the Report. Our thanks to Mr. Arthur Trufant, Capt. Lake Munday, Laurent Brault and all others who had charge of the successful completion of this program.

We sincerely thank one and all for their cooperation during the year and hope for many more years of the same.

In closing, we offer the following message; "Analyze the past, consider the present and visualize the future" as it is up to us to mould the kind of future we should like to have for our Town of Hudson.

YOUR BOARD OF SELECTMEN

1956 REPORT OF RECREATION COMMISSION

Playground activities under the direction of the Town Recreation Commission and the Playground and Craft Instructors were carried on from June 18, through August 24, with approximately 300 children and teen-agers participating during the past year.

Special events included a Field Day, a Kite Flying Contest, a picnic, a Father and Son baseball game and several Tournaments. These are in addition to the usual playground games and activities.

The Playground Little League was most active during the past season, and the older boys' team which was started last year is now well established and will be continued during the coming year.

A girls' softball team was organized and provided much enjoyment for both the girls and the spectators.

The Craft program, one of the most popular activities connected with the playground was very well attended. It is hoped that this program will be continued, but it is difficult to procure instructors for the salary appropriated for this purpose.

Although a section of the playground was plowed and flooded for skating, it did not prove too satisfactory. It seems difficult to get a good foundation for flooding in order to provide a smooth surface for skating on the playground.

Although the Commission was ready to start a playground at Hudson Center, we are unable to do so, as the land for this purpose is not yet available. It is hoped that this may be started during the coming year.

We continue to receive many requests from both adults and teen-agers for a tennis court. It is felt by the Commission that a tennis court should be considered in the near future, to provide for this type of recreation for adults and teen-agers.

In case of fire please remain calm.

Call at once.

Don't attempt to put the fire out alone.

From past experience fire loss has become greater by the department being called in late.

We're at your service twenty-four hours of the day.

Dial 3-7707

Fire Permits may be obtained from the following:

Chief Campbell	2-3993
Ass't Chief Fuller	2-2747
Deputy Warden Gallagher	9-9207

Thank you,

Chief Oscar P. Campbell

The work on the new kitchen in the Fire Station has been progressing very well. Metal cabinets and stainless steel sinks and counters have been installed. We have also had donations of an electric stove and a Westinghouse refrigerator.

This project has cost the Firemen's Relief Fund \$1,500.00, besides the fact that the Firemen have provided the labor. It will greatly increase the value of the Town's Fire Station and represent another saving to the Taxpayer.

DISTRICT FIRE CHIEF'S REPORT

Your Town Dump

Use it freely

Care for it

Your town dump has been set up for your personal convenience. It provides a suitable place where you can dispose of the large amounts of dangerous, inflammable waste material and other useless items which accumulate around your household and local stores, brush, etc., cut on your property. The town dump has become a valuable and indispensable asset in modern community life.

The most successful town dumps are supervised—regular days provided for their use and inflammable material consistently burned. The town dump which receives no attention, where waste material is scattered about without supervision of any description, soon becomes a community menace and a liability rather than an asset.

Many people still burn debris around their homes. A large number of such fires get out of control causing unnecessary damage and expense to the burner. Why burn at home? Make use of your town dump and eliminate the hazard of burning. It will be easier for you—personally and financially.

If, however, you do burn on your premises

1. Secure a permit from your local forest fire warden—the law requires it. The warden won't refuse you if conditions are safe.
2. Be sure to properly supervise your burning. Don't leave it.
3. Make certain your fire is DEAD OUT before leaving it.

Save yourself much possible difficulty

Use your dump freely

Help Keep it safe

REPORT ON THE ATHLETIC FIELD

It was a pleasure to have the surface of the playing field in condition for use by the students of Alvirne. This area received a great deal of use during the fall season. The average load of that area was over 250 students.

The far side of the field will be completed in early spring and a fence of a sort will be put around the water hole. The baseball diamond is usable and we plan to continue work toward skinning the infield area. We have followed very closely the plans sent to us by the supervisor of Fenway Park and feel sure we are building a good diamond.

We now have two water holes which are expected to give us ample water. The sprinkler will be in constant use through most of the spring, summer and fall. The mowing problem has been solved with the Locke mowing machine. However, it is impossible to use this machine on the banks and the school does not have a machine suitable.

We are aware of the problem that upkeep of this area will present. Constant use, even with our present spacing, wears the turf and re-seeding of certain areas is absolutely necessary.

There is considerable time and effort used in the fall season to mark and line the areas in use.

It would appear that the surfacing and fencing of the tennis courts is the next major project.

We must have the cooperation of the people of the town to cover the rubbish that is being transported to the town dump. Failure to do so in the future can result in court action, if the rubbish is littered over the highways. Keep your town clean, cover the rubbish over with a piece of cloth.

During 1956 a Memorial Bookshelf was established in our library, planned and inaugurated by the Hudson Fortnightly Club under the direction of its president, Mrs. Herbert W. Canfield. Anyone wishing to donate a book in memory of a loved one is urged to add to this memory shelf. The Historical committee of the Fortnightly Club has provided heavy screening for some of the basement windows to prevent window breakage. They have added to their historical collection and opened the room to exhibit their collection to youth groups and on other occasions.

The large basement room has been used as a school class room since September 1956 and will be so used until the new addition to the Dr. H. O. Smith school is ready for occupancy. This does not prohibit use of the room by other town groups after school hours and any group desiring use of same should contact Richard Burns and clear the date and time with him.
